EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul J. Pendergast on 28 February 2006.

The application has been amended as follows:

In claim 1, line 12, please amend "indicate lack of estrus," with the following:

- - indicate confirmed estrus - -.

REASONS FOR ALLOWANCE

2. Claim 1 has been amended. Claims 6, 20, and 21 have been cancelled. Claims 1-5 and 7-19 are pending.

3. Claims 1-5 and 7-19 are allowed.

4. The following is an examiner's statement of reasons for allowance:

Claims 1-5 and 7-19: The prior art of record does not teach an electronic means continuously detects and processes information to calculate and indicate lack of estrus, suspect estrus and optimum breeding time.

Blair teaches a detector that indicates a total number of mounts on an animal and the sum of the total times elapsed during each sensed mount. However, this is not an indication of optimum breeding time, as claimed, but rather an indication of the function

Art Unit: 3736

of number of mounts and sum of total times elapsed during any sensed mount taken together. Starzl teaches a system wherein a transmitter module on the animal obtains and transmits data to a central receiver module, which is forwarded to a computer module. The data received by the computer module is processed by dedicated software and a determination made by the computer software on whether the heat cycle for a particular animal has been started. Identification information is transmitted with data from the transmitter module on the animal to reliably connect data with the animal. Therefore, Blair and Starzl do not teach or suggest a self-contained electronic estrus detection device for continuously indicating lack of estrus, suspect estrus and/or optimum breeding timing as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Navin Natnithithadha whose telephone number is (571) 272-4732. The examiner can normally be reached on Monday-Friday, 8:00-4:00.
